Work Experince

2022 - 2023 Segal Mehr (Mores)
Full Stack Developer
I worked as a software developer at Segal Mehr (Mores), which has an ERP cloud product for small and medium businesses, where I got to know microservice architecture, tools such as AWS, Bitbucket, and Sonar Cloud, and gained good experience.
My task in the team as a full-stack programmer was to develop invoice, warehouse and packaging software, which is implemented with .NET 6 and VUE JS .
And also, as the first experience, I experienced writing tests in the project
In the backend, I wrote both unit tests and integration tests, and in the frontend, I wrote tests using JEST .

2019 - 2022 Tejerat Bank (TATA)
Full Stack Developer
Development of Tejarat Bank software such as customer club and payroll web application,
I converted Tejarat Customer Club to PWA also I was the full stack developer of Tejarat Customer Club . we used Asp.Net for backend and JQuery for front and Sql Server for Db. architecture we used was MVC .

2018 - 2019 Ede Pardaz Pasargad (EPPAD)
Full Stack Developer
Development of Production of software related to international shipping insurance,
In more detail, there were two products one is intra-city transport and the other is the international transport

2017 - 2018 Ayrsa Intelligent Systems (AYRSA)
Trainee Developer
I was a trainee in Ayrsa about designing and developing an auction web application with financial and admin panels.
